

Index to the NLGI Spokesman

Volume 65: April, 2001 - March, 2002

INDEX BY AUTHOR

Adams, Mark Alan, *Developing a New Generation of Low Friction Greases with Optimal's SRV® Test System*, May, 2001.

Baker, Robert F., *Ashless Rust Inhibitors for Greases*, June, 2001.

Bala, V., *Fuel Economy Considerations of Multigrade Automotive Gear Lubricants*, July, 2001.

Ballester, Ernie, *Effect of PTFE Particle Size on Wear and Coefficient of Friction*, September, 2001.

Bartlett, Melinda K., *Polyurea Greases - Part 2: Rheological Test Development and Correlation Study*, October, 2001.

Bessette, Paul A., *Manufacturing Grease Using Dry Technology*, February, 2002.

Cann, P.M., *Examination of Grease Structure by SEM and AFM Techniques*, August, 2001.

Drechsler, Peter, *Grease Shelf Life, New Beginnings*, July, 2001.

Fensterheim, Robert J., *Chlorinated Paraffins: An Overview of the Health, Environmental and Regulatory Status*, September, 2001.

Fillion, Christophe, *Effect of PTFE Particle Size on Wear and Coefficient of Friction*, September, 2001.

George, Herman F., *Polyurea Greases - Part 1: Tapered Bearing Performance Correlation Study*, October, 2001.

George, Herman F., *Polyurea Greases - Part 2: Rheological Test Development and Correlation Study*, October, 2001.

Guidry, K.L., *Fuel Economy Considerations of Multigrade Automotive Gear Lubricants*, July, 2001.

Harris, J.W., *Relative Rates of Grease Oxidation in a Penn State Microoxidation Apparatus on Glass and on Steel Sample Pans*, February, 2002.

Hazan, Stan, *NSF Continues the USDA Nonfood Compound Approval Program*, August, 2001.

Honary, Lou A.T., *Performance Characteristics of Soybean-based Greases Thickened with Clay, Aluminum Complex and Lithium*, November, 2001.

Hunter, Maureen E., *Ashless Rust Inhibitors for Greases*, June, 2001.

Hurley, S., *Examination of Grease Structure by SEM and AFM Techniques*, August, 2001.

Kernizan, Carl F., *Polyurea Greases - Part 1: Tapered Bearing Performance Correlation Study*, October, 2001.

Kernizan, Carl F., *Polyurea Greases - Part 2: Rheological Test Development and Correlation Study*, October, 2001.

Kishimoto, Minoru, *Modern Process Automation System for a Lubricating Grease Plant*, May, 2001.

Kuhlman, R.E., *Fuel Economy Considerations of Multigrade Automotive Gear Lubricants*, July, 2001.

Nadasdi, T. Tim, *Next Generation Long-Life Polyurea Greases*, November, 2001.

Polishuk, Arthur T., *Lubricating Greases From Preformed Soaps*, April, 2001.

Rhee, In-Sik, *Development of a New Oxidation Stability Test Method for Lubricating Oils Using a Pressure Differential Scanning Calorimeter (PDSC)*, June, 2001.

Rizvi, Syed A.Q., *Ashless Rust Inhibitors for Greases*, June, 2001.

Sivik, Matthew R., *Grease the Final Frontier: Forecasting the Additive Requirements in the New Millennium*, April, 2001.

Sui, Manshi, *Effect of PTFE Particle Size on Wear and Coefficient of Friction*, December, 2001.

Tamashauskys, Albert V., *The Effect of Graphite Type, Purity, and Concentration on the Performance of a Clay Filled Polyalphaolefin Grease, Based on Four Ball Wear (ASTM D2266) with Coefficient of Friction, and Load Wear Index (ASTM D2596)*, March, 2002.

Todd, Patricia R., *Grease the Final Frontier: Forecasting the Additive Requirements in the New Millennium*, April, 2001.

Todd, Patricia R., *The 2000 Grease Production Survey Report: What Does it Mean?*, January, 2002.

Wetsel, William W., *Polyurea Greases - Part 1: Tapered Bearing Performance Correlation Study*, October, 2001.

INDEX BY CATEGORY

— General —

Lubricating Greases From Preformed Soaps, Arthur T. Polishuk, April, 2001.

Modern Process Automation System for a Lubricating Grease Plant, Minoru Kishimoto, May, 2001.

Fuel Economy Considerations of Multigrade Automotive Gear Lubricants, V. Bala, K.L. Guidry, and R.E. Kuhlman, July, 2001.

NSF Continues the USDA Nonfood Compound Approval Program, Stan Hazan, August, 2001.

The 2000 Grease Production Survey Report: What Does it Mean?, Patricia R. Todd, January, 2002.

— Product Development —

Next Generation Long-Life Polyurea Greases, T. Tim Nadasdi, November, 2001.

— Additives —

Grease the Final Frontier: Forecasting the Additive Requirements in the New Millennium, Patricia R. Todd and Matthew R. Sivik, April, 2001.

Ashless Rust Inhibitors for Greases, Maureen E. Hunter, Ph.D., Syed A.Q. Rizvi, Ph.D. and Robert F. Baker, June, 2001.

Chlorinated Paraffins: An Overview of the Health, Environmental and Regulatory Status, Robert J. Fensterheim, September, 2001.

Effect of PTFE Particle Size on Wear and Coefficient of Friction, Ernie Ballester, Manshi Sui, and Christophe Fillion, September, 2001.

— Testing —

Developing a New Generation of Low Friction Greases with Optimal's SRV® Test System, Mark Alan Adams, May, 2001.

Development of a New Oxidation Stability Test Method for Lubricating Oils Using a Pressure Differential Scanning Calorimeter (PDSC), Dr. In-Sik Rhee, June, 2001.

Grease Shelf Life, New Beginnings, Peter Drechsler, July, 2001.

Examination of Grease Structure by SEM and AFM Techniques, S. Hurley and P.M. Cann, August, 2001.

Effect of PTFE Particle Size on Wear and Coefficient of Friction, Ernie Ballester, Manshi Sui, and Christophe Fillion, September, 2001.

Polyurea Greases - Part 1: Tapered Bearing Performance Correlation Study, Carl F. Kernizan, Herman F. George and William W. Wetsel, October, 2001.

Polyurea Greases - Part 2: Rheological Test Development and Correlation Study, Herman F. George, Carl F. Kernizan and Melinda K. Bartlett, October, 2001.

Relative Rates of Grease Oxidation in a Penn State Microoxidation Apparatus on Glass and on Steel Sample Pans, J.W. Harris, February, 2002.

The Effect of Graphite Type, Purity, and Concentration on the Performance of a Clay Filled Polyalphaolefin Grease, Based on Four Ball Wear (ASTM D2266) with Coefficient of Friction, and Load Wear Index (ASTM D2596), Albert V. Tamashausky, March, 2002.

— Environmental Issues —

Chlorinated Paraffins: An Overview of the Health, Environmental and Regulatory Status, Robert J. Fensterheim, September, 2001.

Performance Characteristics of Soybean-based Greases Thickened with Clay, Aluminum Complex and Lithium, Dr. Lou A. T. Honary, November, 2001.

— Formulations/Research —

Ashless Rust Inhibitors for Greases, Maureen E. Hunter, Ph.D., Syed A.Q. Rizvi, Ph.D. and Robert F. Baker, June, 2001.

Grease Shelf Life, New Beginnings, Peter Drechsler, July, 2001.

Examination of Grease Structure by SEM and AFM Techniques, S. Hurley and P.M. Cann, August, 2001.

Polyurea Greases - Part 1: Tapered Bearing Performance Correlation Study, Carl F. Kernizan, Herman F. George and William W. Wetsel, October, 2001.

Polyurea Greases - Part 2: Rheological Test Development and Correlation Study, Herman F. George, Carl F. Kernizan and Melinda K. Bartlett, October, 2001.

Performance Characteristics of Soybean-based Greases Thickened with Clay, Aluminum Complex and Lithium, Dr. Lou A. T. Honary, November, 2001.

Manufacturing Grease Using Dry Technology, Paul A. Bessette, February, 2002.

The Effect of Graphite Type, Purity, and Concentration on the Performance of a Clay Filled Polyalphaolefin Grease, Based on Four Ball Wear (ASTM D2266) with Coefficient of Friction, and Load Wear Index (ASTM D2596), Albert V. Tamashausky, March, 2002.
